What's Inside Your Heart?

Directions: Follow the instructions to make a heart message for a friend or family member.

What You Will Need

- white drawing paper
- red tissue paper
- glue
- a pencil
- scissors

What You Will Do

1. Fold the piece of white drawing paper in half. Use the pattern below to draw half a heart onto the white drawing paper. (Place the dashed line onto the folded edge.)
2. Cut out the shape. Unfold the paper so you have a whole heart.
3. Place the tissue paper on the white drawing paper.
4. Trace around the heart.
5. Cut out the red tissue paper heart, then set it aside.
6. On the white paper, write a message in the center of the heart shape for a friend or family member. Write why that person is special to you.
7. Glue together along the top parts of the hearts, with the red tissue paper heart on top.
8. Give the heart message to your friend or family member.
