

The Middle East

The Middle East is the name given to a group of countries in western Asia. Some of these countries either border on or are near the Mediterranean Sea, extending to the east to include Iran. Others are on the Arabian peninsula which is separated from Africa by the Gulf of Aqaba and the Red Sea. This region is very much like North Africa. In fact, Egypt, which lies just west of the Red Sea in Africa, is usually included in any discussion of the Middle East. The land itself is hot and dry. The few trees that grow there are along the shores of the Mediterranean Sea, in fertile river valleys, or in desert oases. The Middle East is a region so different from Southeast Asia that it might be in another world instead of at the other side of the same continent.

Find information about this area in reference books and answer these questions.

1. What is the only city in the world that occupies land on two continents?

2. Which Middle Eastern country is an island nation?

3. What is the capital of Lebanon?
