

Animal Alphabet Tiles

Animal Alphabet Tiles

Materials

- Self adhesive wall tiles
- Wall
- Acrylic paint and paintbrush
- Animal alphabet stickers
- Measuring tape

Let's Do It

- Read the directions on the back of the wall tiles carefully before beginning this project.
- Measure the wall you are applying the tile border to and figure out how many tiles you will need. For example, if the wall requires 30 tiles, 2 extra tiles can be placed on each end, with the 26 alphabet tiles in the middle.
- Review or teach the alphabet by painting each letter on one of the 26 tiles.
- Find an animal sticker to fit with each letter of the alphabet and carefully press it onto the correct tile.

More Ideas

Instead of tiles, use a plain wallpaper border. Paint the border with a base color to go with the room. Then, draw and paint on alphabet letters and animals to go with each letter.

If you do not want to apply anything permanent to the wall, use the removable animal stickers and alphabet letter stickers.

Cover a small table or desk with the tiles instead of using a wall.
